Chrome

Confirm Plugin Installation

Confirm the Pavaso screen share plugin is installed. Read the displayed message under the webcam feed to determine whether the individual has the plugin installed. This plugin allows for the screen share capability during the signing. Once installation is completed, the message updates to **Video conference plugin is supported.**

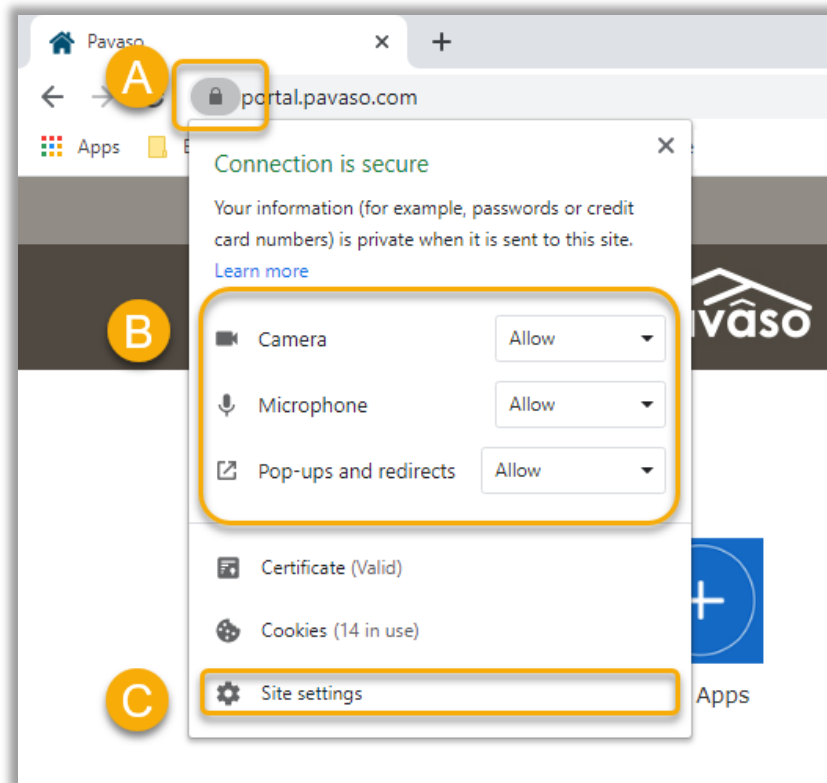

Browser Camera and Microphone Access

If the plugin is installed and camera, microphone, and speaker options still are not enabled, confirm the browser is allowing access to camera, microphone, and popups. If desired, these settings can be adjusted after the signing is complete.

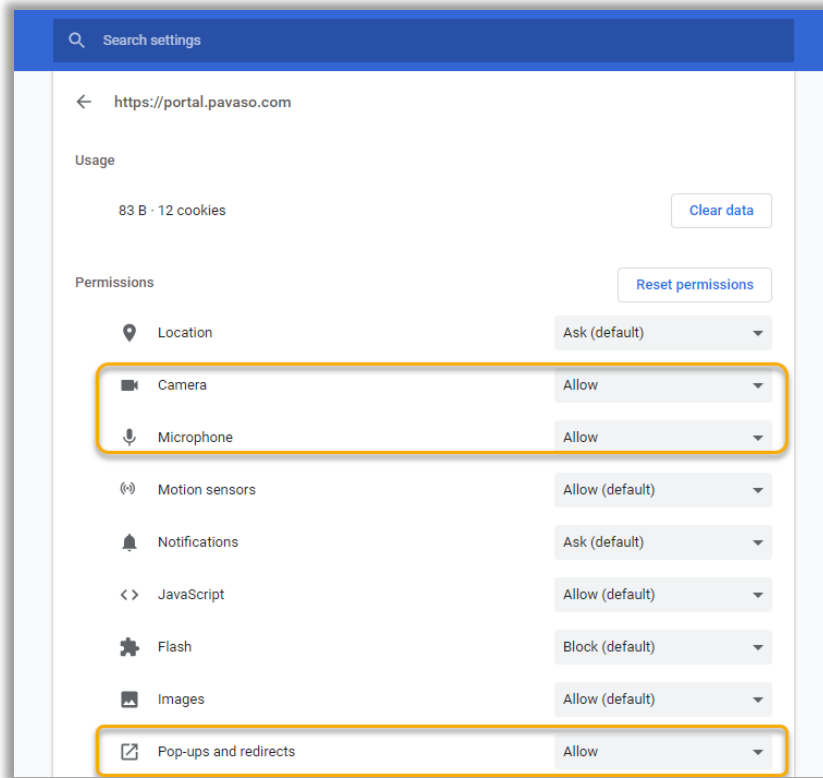

- A. From the URL bar, select the padlock.
- B. From the dropdown menu, confirm **Camera**, **Microphone**, and **Pop-ups and redirects** are all set to **Allow**.
- C. If the options do not appear in this menu, select **Site Settings**.

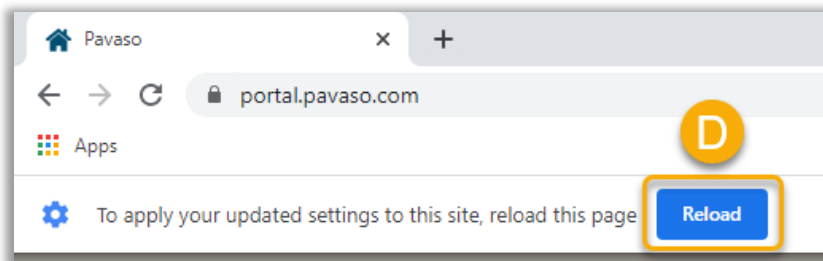

Essential Notary™* System Test Troubleshooting

From the Site Settings, change **Camera**, **Microphone**, and **Pop-ups and redirects** to **Allow**. Close the settings tab after making changes.

D. After closing the Settings tab, confirm you have the browser tab displaying Pavaso selected. A message displays confirming your changes. Select **Reload** to apply the adjusted settings.

Camera, microphone, and speakers should function as expected.

If you continue to experience issues with the system test, also check your computer settings to confirm no other programs are blocking the use of your camera or microphone. Location of these settings will vary by operating system.

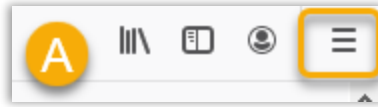

If the issue persists, we recommend switching your browser to Firefox.

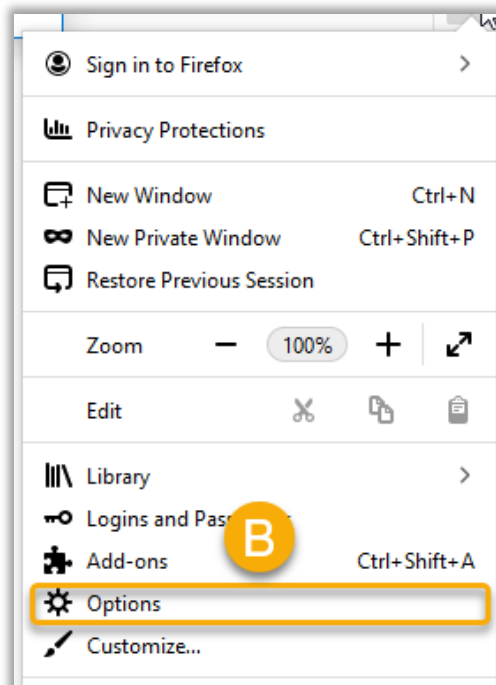

Firefox
