

# Your Digital Home Closing

## Pavaso® Digital Closing

When you purchase, refinance, sell, or obtain a home equity loan/line on a home, signing the closing documents is one of the final steps in the transaction. Traditionally, closings require in person manual signing of a large amount of paper documents.

The companies you are working with are choosing to do something better – better for you, better for the environment and better for the real estate industry.

Your closing team is utilizing Pavaso to perform digital closings and provide an exceptional closing experience. Pavaso provides the opportunity to securely review and confirm the accuracy of your closing documents prior to closing, using any web browser, from the comfort of your home. During the closing, you will be able to electronically sign all or most of your documents and complete the closing in as little as 15 minutes.

## What to Expect

Here's an overview of what you can expect once your paperwork has been processed and an order is set up in Pavaso's Digital Close web application:

- You will receive a welcome email from [noreply@pavaso.com](mailto:noreply@pavaso.com).
- Select the link in the email to create your secure account and access the site.
- Once you enter the platform, a tutorial will pop up to walk you through the process.
- Review, then confirm the accuracy of your documents.
- Your closing team will be notified that you are ready to close.
- Meet with your closing agent to digitally close.
- **Congratulations, your signing is completed!**
